ENGINEERING

The information below regarding change of major provides students a target for a minimum GPA and minimum coursework to apply. Space availability and the applicant pool can vary each semester. Therefore higher GPA and coursework achievement than the minimum required to apply for acceptance may be necessary to gain acceptance into a major field of study. Contact an advisor in Transition Academic Programs for more details for each major.

Departmental Videos (click here)
Each department in Engineering created these videos to help students have a better understanding of each discipline.

Common Engineering Courses (starting Fall 2018)

**Introductory Course**
- ENGR 102 (2 credit hours, taken when accepted into an ENGR major)

**Mathematics**
- MATH 151
- MATH 152

**Physics**
- PHYS 206 (ENGR 216/PHYS 216 - 2 credit hour lab, taken when accepted into an ENGR major)
- PHYS 207 (ENGR 217/PHYS 217 - 2 credit hour lab, taken when accepted into an ENGR major)

**Chemistry**
- CHEM 107/117 (for all ENGR majors)
- CHEM 120 (CHEN, BME, and MSEN need this 2nd course)

General Guidelines
- Grades of D, F or repeated courses can negatively affect competitiveness
- The more common engineering courses completed, the more competitive a student will be
- Math and Science courses require a minimum grade of C, higher grades are more competitive
- Taking math and science courses at TAMU and earning good grades makes a student more competitive
- The College of Engineering will not accept substitutions for ENGR 102
