Contact an advisor in **Transition Academic Programs** for more details for each major.

**Departmental Videos** (click here)

*Each department in Engineering created these videos to help students have a better understanding of each discipline.*

**Common Engineering Courses (starting Fall 2018)**

**Introductory Course**
- ENGR 102 (2 credit hours, taken when accepted into an ENGR major)

**Mathematics**
- MATH 151
- MATH 152

**Physics**
- PHYS 206 (ENGR 216/PHYS 216 - 2 credit hour lab, taken when accepted into an ENGR major)

- CHEM 120 (CHEN, BMEN, and MSEN need this 2nd course)

---

**General Guidelines**

- Grades of D, F or repeated courses can negatively affect competitiveness
- The more common engineering courses completed, the more competitive a student will be
- Math and Science courses require a minimum grade of C, higher grades are more competitive
- Taking math and science courses at TAMU and earning good grades makes a student more competitive
- The College of Engineering will not accept substitutions for ENGR 102
